CREDIT STARTER

What is credit rating? Why is it important?

An individual's credit rating shows their ability to repay a loan. It is used by financial institutions to gauge their credit worthiness.

It is especially important for young adults to secure loans as they have no credit history, which makes it extremely hard for them to qualify for larger loans such as vehicle and unsecured loans.

The key is to start small, which is why our credit starter loan is perfect for our up-and-coming young members.
